1886.

Entered according to Act of the Parliament of Canada in the year one thousand eight hundred and eighty-six by the OXFORD PUBLISHING COMPANY of Toronto, in the office of the Minister of Agriculture.

ADVERTISEMENT.

Campbell's "COMMERCIAL GAZETTEER AND ATLAS" has been prepared with a view to furnishing a general compendium of useful information for the use of Merchants, Bankers, and Traders throughout the Dominion of Canada.

A carefully prepared Index, occupying forty-three pages, has been compiled, showing every Post Office, with the nearest Railway Station, Banking Town, Express Office, and Telegraph Office in Ontario; each of which is shown on the Maps.

Tables showing the extent of the COMMERCE OF CANADA with other Countries are given in detail, and the progress made by the Dominion since Confederation is shown by a comparative table. A list of all the principal Foreign Ports in the world, with their extent and principal Exports, is also supplied.

The Tariff of Customs and Excise has been corrected up to the present date, and tables are given for computing Foreign Money according to the Custom House standard. The Postal Guide is also given in a succinct form, and in the Index all the Money Order Offices and Post Office Savings Banks in Canada are distinguished by the type, capitals or italics, in which they are printed.

Lists of all the Railways of Canada and their branches, the Inland and Ocean Steamship routes, and Stage routes are given; also a list of all the Newspapers published in Canada, with the details referring to them, making it a valuable help to advertisers.

Statements of the Finances of the Dominion and of the Provinces are given. A valuable feature will be found in the INTEREST and DISCOUNT TABLES, and the tables for computing the number of days from any one date to another.

Statistics of Fire and Life Insurance Companies, Building and Loan Societies and other Companies doing business in the Dominion, are supplied, and a large amount of general information given, in the form of tables and otherwise, in regard to the Finances, Shipping, and Commerce of the Dominion and of the various Provinces.

Tables are given for computing the value of grain, saw-logs, and timber, and for measuring land. Valuable tables are also given showing the strength and specific gravity of metals and timber, and their breaking strain, and other information in a concise and useful form; and for computing wages by the day or week.

The increase in the population during the last decade was 680,498, against an increase of 464,197 in the preceding decade, and this growth, which is equal to 184 per cent., against an increase of only 15 per cent. in 1861-71, has been made in spite of the fact that for five years of the decade the country experienced the most severe trade depression that has ever befallen it. The actual increase and the percentage of growth in the several provinces during the past ten years were as follows:—

The value of all bottles, flasks, jars, demijohns, carboys, casks, hogsheads, pipes, barrels, and all other vessels or packages, manufactured of tin, iron, lead, zinc, glass, or any other material, and capable of holding liquids—crates, barrels and other packages containing glass, china, crockery, or earthenware, and all packages in which goods are commonly placed for home consumption, including cases in which bottled spirits, wines, or malt liquors are contained, and every package, being the first receptacle or covering enclosing goods for purpose of sale, shall, in all cases (not otherwise provided for), in which they contain goods subject to an *ad valorem* duty or a specific and *ad valorem* duty, be taken and held to be a part of the fair market value of such goods for duty, and shall be charged with the same rate of *ad valorem* duty as is to be levied and collected on the goods they contain, and when they contain goods subject to specific duty only, such packages shall be charged with a duty of Customs of twenty per centum *ad valorem*, to be computed upon their original cost or value; and all or any of the above packages described as capable of holding liquids, when containing goods exempt from duty under this Act, shall be charged with a duty of twenty per centum *ad valorem*; but all packages not hereinbefore specified, and not herein specially charged with or declared liable to duty under regulations and being the usual and ordinary packages in which goods are packed for exportation only, according to the general usage and custom of trade, shall be free of duty.

5. Any or all of the following articles, that is to say, animals of all kinds, green fruit, hay, straw, bran, seeds of all kinds, vegetables (including potatoes and other roots), plants, trees and shrubs, coal and coke, salt, hops, wheat, peas and beans, barley, rye, oats, Indian corn, buckwheat and all other grain, flour of wheat and flour of rye, Indian meal and oatmeal, and flour or meal of any other grain, butter, cheese, fish (salted or smoked), lard, tallow, meats (fresh, salted or smoked), and lumber may be imported into Canada free of duty, or at a less rate of duty than is provided by this Act, upon Proclamation of the Governor-in-Council, which may be issued whenever it appears to his satisfaction that similar articles from Canada may be imported into the United States free of duty, or at a rate of duty not exceeding that payable on the same under such Proclamation when imported into Canada.

7. If at any time any greater duty of Customs should be payable in the United States of America on tea or coffee imported from any other country, then the Governor-in-Council may impose on tea or coffee imported into Canada from the said United States an additional duty of Customs equal to the duty payable in the United States on tea or coffee imported from Canada: Provided that tea or coffee imported into Canada from any country other than the said United States, but passing in bond through the United States, shall be taken and rated as a direct importation from the country in which the tea or coffee was purchased.

8. An allowance may be made for deterioration by natural decay during the voyage of importation, upon perishable articles, such as green fruits and vegetables imported into Canada, but in assessing the same, and in estimating the damage by breakage upon brittle goods, such as crockery, china, glass and glassware, under the provisions of Sections 53 and 54 of the Customs Act of 1883, such allowance or damage shall only be made and allowed for the amount of the loss in excess of 25 per cent. of the whole quantity damaged, and only in case claim is made therefor, and the loss or damage certified upon examination made by the Appraiser or proper officer of Customs within three days of the landing or arrival of such goods at the port of destination thereof; and, provided the duty has been paid on the full value thereof, on application to the Minister of Customs, a refund of such duty may be allowed and paid, in the proportion and in fulfilment of the conditions above specified, but not otherwise.

9. In determining the dutiable value of goods, there shall be added to the actual wholesale price or fair market value thereof, at the time of exportation in the principal markets of the country from whence the same has been imported into Canada, the cost of inland transportation, shipment and trans-shipment, whether by land or by water, with all the expenses included, from the place of growth, production, or manufacture, to the vessel in which shipment is made, and to and at the port from which such vessel finally clears for her outward voyage direct to Canada.

When any manufactured article is imported into Canada in separate parts, each such part shall be charged with the same rate of duty as the finished article on a proportionate valuation, and when the duty chargeable thereon is specific or specific and *ad valorem*, an average rate of *ad valorem* duty equal to the specific and *ad valorem* duty so chargeable shall be ascertained and charged upon such parts of manufactures.

11. No refund of duty paid shall be allowed, because of any alleged inferiority or deficiency in quantity of goods imported and entered, and which have passed into the custody of the importer under permit of the Collector of Customs, nor because of the omission in the invoice of any trade discount, or other matter or thing, which might have the effect of reducing the value of such goods for duty, unless the same has been reported to the Collector of Customs within ten days of the date of entry and the said goods have been examined by the said Collector or by an appraiser, or other proper officer of Customs, and the proper rate or amount of reduction certified by him after such examination;

and if such Collector or proper officer reports that the goods in question cannot be identified as those named in the invoice and entry in question, then and in such case no refund of the duty or any part thereof shall in any case be allowed; and all applications for refund of duty in such cases shall be submitted, with the evidence and all particulars, for decision of the Minister of Customs, who may then order payment on finding the evidence to be sufficient and satisfactory.

12. The whole or part of the duty of thirty per centum *ad valorem* imposed by this Act upon wines imported into Canada, may be remitted upon proclamation of the Governor-in-Council, which may be issued whenever it appears to his satisfaction that the Governments of France and Spain, or of either of them, have made changes in their tariffs of duties imposed upon articles imported from Canada in reduction or repeal of the duties now in force in the said countries.

EXTRACTS FROM CUSTOMS ACT.

(46 VIC., CHAP. 13.)

6. On each and every non-enumerated article which bears a similitude, either in material, quality or the use to which it may be applied, to any enumerated article chargeable with duty, the same rate of duty shall be payable which is charged on the enumerated article which it most resembles in any of the particulars before mentioned.

7. If any non-enumerated article equally resembles two or more enumerated articles on which different rates of duty are chargeable, the duty on such non-enumerated article shall be the same as that on the enumerated article which it resembles paying the highest duty.

8. On articles manufactured from two or more materials, the duty shall be that charged on the article (if there be a difference of duty) which is charged with the highest duty.

9. If an article is enumerated in the tariff under two or more names or descriptions, and there be a difference of duty, the highest duty provided shall be charged and collected thereon.

53. If any goods imported by water, or partly by water and partly by land, on which duties (*ad valorem* or specific, or both) are payable, receive damage during the voyage of importation between the actual departure of the vessel in which they are laden from the foreign port of exportation and the actual arrival of the goods at the port of destination in Canada, whereby such goods have become lessened in value, an abatement may be made in the manner hereinafter provided in the duty payable upon such goods, or in case duty has been paid thereon a refund of a part of such duty may be made proportionate to the damage sustained: Provided the claim therefor is made in due form and properly substantiated at the first landing from such vessel of the said goods, and while they are in the custody of the Crown, or as soon after such first landing as they can be examined: Provided also, that such examination be completed and certified by the Collector of Customs, Customs Appraiser, or other proper officer, whose duty it shall be to assess such damage within ten days of such landing.

54. If any goods imported by railway, or by any other land vehicle, on which duties (*ad valorem* or specific, or both) are payable, receive damage during the course of transportation after they are laden on such railway or other vehicle, and before they arrive at the Canadian port of destination, whereby they become lessened in value, an abatement may be made in the manner hereinafter provided in the duty payable upon such goods provided the claim for such abatement is made in due form within ten days of the arrival of such goods at the Canadian port of destination, and substantiated in the same manner as provided in the next preceding section.

55. The Collector of Customs or Appraiser or other proper officer whose duty it may be to examine and assess the amount of damage sustained on voyage or in course of importation shall do so with all possible despatch on being notified to that

effect, and shall certify to the exact cause and extent of such damage with reference to the value of the goods in the principal markets of the country whence imported, and not according to the value in Canada.

66. The Collector or Appraiser shall not regard as evidence of the existence or amount of damage any price realized at an auction or forced sale thereof, nor shall he estimate nor shall any damage be allowed which may have originated from decay, dampness, or other cause existing before the voyage commenced and which may have rendered the goods unfit to withstand the ordinary risks of the voyage of importation, nor shall he estimate nor shall any allowance be made for or duty refunded on rust on iron and steel or any manufacture thereof, except on polished Russia iron and Canada plates, and on such only to the extent of fifty per cent., nor shall any allowance be made for stains or injury to any packages holding liquids, or to the labels thereon, unless the contents of such packages have, at the same time, received actual specific damage by the admixture therewith of water or other foreign substance.

67. Upon the Collector or Appraiser ascertaining the percentage of damage, such percentage shall be deducted from the original value thereof and duty shall then be levied and collected on such reduced value at an *ad valorem* rate which shall be equivalent to the rate of specific or specific and *ad valorem* duty which should have been collected upon such goods if they had not been so damaged.

68. Where any duty *ad valorem* is imposed on any goods imported into Canada, the value for duty shall be the fair market value thereof, when sold for home consumption, in the principal markets of the country whence and at the time when the same were exported directly to Canada.

69. Such market value shall be the fair market value of such goods in the usual and ordinary commercial acceptance of the term, at the usual and ordinary credit, and not the cash value of such goods, except in cases in which the article imported is, by universal usage, considered and known to be a cash article, and so *bona fide* paid for in all transactions in relation to such article; and all invoices representing cash values, except in the special cases hereinbefore referred to, shall be subject to such additions as to the Collector or Appraiser of the port at which they are presented may appear just and reasonable, to bring up the amount to the true and fair market value, as required by this section.

70. Where a drawback of duties has been allowed by the Government of the country where the goods were manufactured, the amount of such drawback shall be taken and considered to be a part of the fair market value of such goods; and in cases where the amount of such drawback has been deducted from the value of such goods upon the face of the invoice under which entry is to be made, or is not shown thereupon, the Collector of Customs, or proper officer, shall add the amount of such deduction or drawback and collect and cause to be paid the lawful duty thereon.

71. No deduction of any kind shall be allowed from the value of any goods imported into Canada, because of any drawback paid or to be paid thereon, or because of any special arrangement between the seller and purchaser having reference to the exportation of such goods, or the exclusive right to territorial limits for the sale thereof, or because of any royalty payable upon patent rights but not payable when goods are purchased for exportation, or on account of any other consideration by which a special reduction in price might or could be obtained: Provided, that nothing herein shall be understood to apply to general fluctuations of market values.

72. No deduction from the value of goods contained in any invoice shall be allowed on account of the assumed value of a package or packages, where no charge for such package or packages has been made in such invoice; and where such charge is made it shall be the duty of the Customs officer to see that the charge is fair and reasonable, and represents no more than the original cost thereof.

73. No deduction from the value of goods in

any invoice shall be made on account of charges for packing, or for straw, twine, cord, paper, cording, wiring or cutting, or for any expense incurred or said to have been incurred in the preparation and packing of goods for shipment, and all such charges and expenses shall, in all cases, be included as part of the value for duty.

79. If the importer of any goods whereon a duty *ad valorem* is imposed, or the person authorized to make the declaration required with regard to such goods, makes and subscribes a declaration before the Collector or other proper officer, that he cannot, for want of full information, make perfect entry thereof, and takes the oath in such cases provided, then the Collector or officer may cause such goods to be landed on a bill of sight for the packages and parcels thereof, by the best description that can be given, and to be seen and examined by such person and at his expense, in the presence of the Collector or principal officer, or of such other officer of the Customs as shall be appointed by the said Collector or other proper officer, and to be delivered to such person, on his depositing in the hands of the Collector or officer a sum of money sufficient in the judgment of the Collector or officer to pay the duties thereon; and if the importer does not complete a perfect entry within the time appointed by the Collector, the money so deposited shall be taken and held to be the duty accruing on such goods, and shall be dealt with and accounted for accordingly.

80. Such sight entry may be made as aforesaid and the goods may be delivered, if such importer or person as aforesaid makes oath or affirms that the invoice has not been and cannot be produced, and pays to the Collector or proper officer aforesaid a sum of money sufficient in the judgment of such Collector or officer to pay the duties on such goods, and such sum shall then be held to be the amount of the said duties.

81. Except only in cases where it is otherwise provided herein, or by regulation of the Governor in Council, no entry shall be deemed perfect unless a sufficient invoice of the goods to be entered, duly certified in writing thereon as correct by the person, firm or corporation from whom the said goods were purchased, has been produced to the Collector, and duly attested as required by this Act.

85. If the owner, importer or consignee of any goods be dead, or a bankrupt, or insolvent, or if for any cause his personal estate be administered by another person, then his executor, curator, administrator or assignee, or person administering as aforesaid, may, if cognizant of the facts, take any oath and make any entry which such owner, importer or consignee might otherwise have taken or made.

89. No person other than the owner, consignee or importer of the goods of which entry is to be made, shall be allowed to take any oath connected with the entry, unless there be attached to the bill of entry therein referred to, a declaration by the owner, consignee or importer of the said goods, or his attorney and agent duly appointed to transact business with the Collector, pursuant to the provisions in that behalf of the Act, to the same effect as the oath, distinctly referring to the invoice presented with such bill of entry, and signed by such owner, importer or consignee, or by his attorney and agent appointed as aforesaid, either in presence of the agent making the entry, who shall attest the signature, or some Justice of the Peace or Notary Public, who shall attest the same.

90. Such declaration shall be kept by the Collector, and if there be any wilfully false statement in such declaration the goods shall be liable to seizure and forfeiture in the same manner and with the same effect as if such false statement were contained in the oath, and the person making such false statement shall be subject to the same penalties, forfeitures and criminal punishments as if he had himself taken the oath and had made such false statement therein; but such written declaration may be dispensed with under the order of the Governor in Council, where it may be deemed advisable, in the interests of commerce to dispense therewith.

92. If any person makes or sends or brings into Canada, or causes or authorizes the making, sending or bringing into Canada, of any invoice or paper, used or intended to be used as an invoice for Customs purposes, where any goods are entered or charged at a less price or value than that actually charged or intended to be charged for them, no price or sum of money shall be recoverable by such person, his assignees or representatives for the price or on account of the purchase of such goods or any part of them, or on any bill of exchange, note or other security (unless in the hands of an innocent holder for value, without notice) made, given or executed for the price or on account of the purchase of such goods or any part of such price.

102. If in any case the true value for duty of any goods as finally determined under this Act, or as determined in any other action or proceeding to recover unpaid duties, exceeds by twenty per centum, or more, the value for duty as it would appear by the bill of entry thereof, then in addition to the duty payable on such goods, when properly valued, there shall be levied and collected upon the same a sum equal to one-half of the duty so payable; and in case the owner or importer refuses or neglects to pay the said duty and additional sum, the goods may be seized and forfeited.

107. If any goods are found in any package which are not mentioned in the invoice or entry, such goods shall be seized and absolutely forfeited.

118. During the regular warehouse hours, and subject to such regulations as the Collector or proper officer of Customs at any warehousing port sees fit to adopt, the owner of any warehoused goods may sort, pack, repack or make any arrangements respecting the goods warehoused in order to the preservation or legal disposal thereof, and may take therefrom moderate samples, without present payment of duty or entry.

119. The owner of any warehoused goods may remove the goods, under the authority of the Collector or proper officer, from any warehousing port to any other warehousing port in Canada, or from one warehouse to another in the same port, under good and sufficient bonds to the satisfaction of such officer.

123. All warehoused goods shall be finally cleared, either for exportation or home consumption, within two years from the date of the first entry and warehousing thereof; and, in default thereof, the Collector or proper officer may sell such goods for the payment, first of the duties, and secondly of the warehouse rent and other charges; and the surplus, if any, shall be paid to the owner or his lawful agent; and the Collector or proper officer may charge or authorize the occupier of the warehouse to charge a fair warehouse rent, subject to that regulation made by the Governor-in-Council in that behalf.

124. The Collector may, if he sees no reason to refuse such permission, permit an importer to abandon to the Crown any whole package or packages of warehoused goods without being liable to pay any duty on the same; and the same shall then be sold and the proceeds shall belong to the Crown; provided, that if such goods cannot be sold for a sum sufficient to pay the duties and charges, such goods shall not be sold, but shall be destroyed.

240. Although any duty of Customs has been overpaid, or although after any duty of Customs has been charged and paid, it appears or is judicially established that the same was charged under an erroneous construction of the law, no such overcharge shall be returned after the expiration of three years from the date of such payment, unless application for repayment has been previously made.

241. No refund of duty shall be allowed after the lapse of fourteen days from the time of entry, for any alleged mis-description of goods by the importer; and should any error of the kind be discovered by the importer while unpacking his goods, he shall immediately, and without further interference with the goods, report the facts to the Collector in order that the same may be verified.

BRITISH, COLONIAL AND FOREIGN MAILS.

RATES OF POSTAGE.

LETTERS.

The rate of postage on letters between any place in Canada and any place in the United Kingdom is 5 cents per half ounce or fraction of a half ounce, by whatever route sent or received, whether by Canadian steamers or steamers sailing from New York.

Correspondence for the United Kingdom, British Colonies or Foreign Countries, intended to be despatched by way of New York, should be specially so addressed.

The postage on all letters posted in Canada for the United Kingdom, and in the United Kingdom for Canada, should be prepaid.

A letter for the United Kingdom posted wholly unpaid will be forwarded, but will be charged double postage on delivery. An insufficiently prepaid letter will be charged double the deficient postage. This regulation does not apply to registered letters; no letter can be forwarded registered to any destination until the postage is fully paid.

Unpaid letters addressed to Countries in the Postal Union (except the United States) are charged double the prepaid rate, and those partially paid are charged double the deficiency.

The same rates are chargeable in Canada on insufficiently paid letters received from Postal Union Countries.

The rates upon letters for British Colonies and Foreign Countries will be found in the tables given hereafter. It will be desirable, also, to mark on the letter the route by which it is intended to be sent.

Letters on which the prepayment of postage is stated to be compulsory in the Tables of Rates to British Colonies or Foreign Countries, will, if posted unpaid or not sufficiently prepaid, be returned to the writers through the Dead Letter Office. The rate of postage on letters between any place in Canada and any place in the United States is 3 cents per half ounce or fraction of a half ounce, which should be prepaid by stamp.

Insufficiently paid letters mailed in the United States and addressed to Canada, or vice versa, mailed in Canada and addressed to the United States, on which a single rate of postage or more has been prepaid, will be forwarded charged with the amount of the deficient postage, to be collected on delivery and retained by the Post Office Department of the country of destination. The amount of such deficient postage will be indicated in figures, by the despatching exchange office, on the upper left hand corner of the address.

The rate of postage on letters between any place in Canada and any place in Newfoundland is 5 cents per half ounce or fraction of a half ounce, which should be prepaid by stamp. Unpaid and insufficiently prepaid letters for Newfoundland will be treated in the same manner as unpaid and insufficiently prepaid letters for any other country in the Postal Union.

Letters, etc., sent to or received from a country of the Postal Union and afterward re-directed to any place in Canada, or to another country within the Union, are not liable to any additional charge, nor, if registered, to an additional fee for registration; such, however, as have been in the first instance addressed to a place in the country where they were posted, are chargeable on re-direction with the same postage, less the sum prepaid, which would have been charged had they been addressed in the first instance to the place of their ultimate delivery, but if registered, without additional fee.

No letter for a British Colony or Foreign Country may exceed two feet in length or one foot in width or depth.

NEWSPAPERS AND PERIODICALS.

1. On transient newspapers addressed to the United Kingdom the rate will be one cent per 2 ounces or fraction of 2 ounces, to be prepaid by postage stamp. Canadian Newspapers posted from the office of publication to subscribers in the United Kingdom, if to be sent in the Mails forwarded via New York or Boston, must be prepaid by postage stamp at transient paper rate of 1 cent per 2 ounces; but if sent by Canadian Packet such papers may pass, on prepayment by the publishers at the time of posting, of the rate of 1 cent per pound. Canadian Periodicals, when sent by mail to the United Kingdom or to British Colonies or Foreign Countries (except the United States), liable to ordinary book packet rates. All newspapers and periodicals prepaid at the bulk rate of 1 cent per pound must be stamped "Prepaid by Publisher" at the Post Office where such newspaper or periodical is mailed.

2. Newspapers, if sent singly, must be prepaid at the newspaper rate, but they may be sent in packets paid collectively at book-post rate, or by newspaper rate; but, if at newspaper rate, each paper must be paid the same rate as if sent singly. The rates on newspapers and periodicals addressed to British Colonies and Foreign Countries will be found in the tables given hereafter.

3. Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, other than Canadian newspapers sent from the office of publication, and British newspapers posted by news agents for regular subscribers in Canada. When addressed to any place in Newfoundland or the United States, they must be prepaid the following rates by postage stamp:—

If weighing less than 1 ounce, half a cent each.

If weighing over 1 ounce, 1 cent for 4 ounces or fraction of four ounces.

Transient newspapers and periodicals for the office of publication for the United Kingdom are to be treated as transient newspapers or periodicals, the rate upon which is 1 cent per 2 ounces.

4. Newspapers addressed to the United Kingdom may be registered on prepayment, by stamp, of a registration fee of five cents, in addition to the ordinary postage.

5. Transient newspapers when posted without prepayment of the postage are sent to the Dead Letter Office when the ordinary Dead Letter Return.

6. Newspapers posted duly prepaid in Newfoundland, the United States and

the United Kingdom, and addressed to any place in Canada, will not be subject to any Canadian postage on delivery.

When newspapers, periodicals and other printed matter, published or originating in the United States, are brought into Canada and posted there for destinations in the United States, apparently to evade the postage rates or regulations applicable to such matter in the United States, the Canada Post Office may require prepayment of the same to be made at a rate equivalent to double the Canada domestic rates.

7. Newspapers forwarded prepaid from Canada are now delivered in the United Kingdom without additional charge.

8. Every newspaper must be posted either without a cover (in which case it must not be fastened, whether by means of gum, wafer, sealing-wax, postage stamp, or otherwise), or in a cover entirely open at both ends, so as to admit of easy withdrawal for examination.

9. Every newspaper must be so folded as to admit of the title being readily inspected.

10. No newspaper, whether posted singly or in a packet, may contain any enclosure except the supplement or supplements belonging to it.

11. There must be no writing or other mark on a newspaper sent abroad but the name and address of the person to whom it is sent; nor anything on the cover but such name and address, the printed title of the publication, the printed name and address of the publisher or vendor who sends it, and words indicating the date on which the subscription to the newspaper will end.

12. No packet of newspapers may exceed two feet in length or one foot in width or depth.

In cases where subscribers to Newspapers or other periodicals published in the United States refuse to take the same from the Office, or neglect to call for them for a period of one month after their receipt at the Post Office, Postmasters will in future notify the Publishers of such newspapers or periodicals of the fact.

MISCELLANEOUS MATTER.

1. Passing between Canada and the United Kingdom.

1. The Regulations of the British Post Office do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of *Miscellaneous Matter* as such; but the greater part of the matter referred to under that head may be forwarded to the United Kingdom by book post. [See below.]

2. Passing between Canada and the United States.

1. The greater part of the matter enumerated under the head of *Miscellaneous Matter* may be transmitted by mail to the United States at the same rate of postage, and under the same conditions, as if addressed to places within the Dominion, subject, however, to any United States customs dues to which the contents may be liable.

2. When received from the United States addressed to any place in Canada, packages of such matter are delivered free of Canadian postage, but subject to any Customs duties to which the contents may be liable.

3. There is no provision for the transmission of seeds and bulbs between Canada and the United States by mail except when sent as samples—the limit of weight for each packet is eight ounces, the rate ten cents.

BOOK PACKETS.

BOOK POST.

1. Passing between Canada and the United Kingdom, British Colonies and Foreign Countries.

1. Articles which may be sent to places abroad under the Book Post Regulations consist of two classes, as follow:—

(a) "Commercial Papers," under which are comprised all papers or documents written or drawn wholly or partly by hand (except letters or communications in the nature of letters, or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, Deeds drawn up by public functionaries, copies of or extracts from Deeds under private seal (as when written or printed on stamped or unstamped paper), Way Bills, Bills of Lading, Invoices and other documents of a mercantile character, documents of Insurance and other public companies, all kinds of manuscript Music, the manuscript of Books and other literary works, and other papers of a similar description.

(b) "Printed Papers," including periodical works, books (stitched or bound), pamphlets, sheets of music (printed), visiting cards, address cards, proofs of printing (with or without the manuscript relating thereto), engravings, photographs (when not on glass or in frames containing glass), drawings, plans, maps, catalogues, prospectuses, announcements and notices of various kinds, whether printed, engraved, or lithographed, and in general all impressions or copies obtained upon paper, parchment or card-board, by means of printing, lithographing or any other mechanical process easy to recognize, except the copying press, and anything usually attached or appurtenant to any of the before-mentioned articles in the way of binding, mounting or otherwise, and anything written or printed on their safe transmission by post which shall be contained in the same packet; also printed, engraved or lithographed circulars, notwithstanding that such circulars may be letters or communications in nature of a letter.

2. Every packet must be posted either without a cover (in which case it must not be fastened, whether by means of gum, wafer, sealing-wax, postage stamp, or otherwise) or in an open cover so as to admit of the contents being easily withdrawn for examination; otherwise it is treated as a letter. For the greater security of the contents, however, it may be tied at the ends with string; Postmasters being

BRITISH, COLONIAL AND FOREIGN MAILS—Continued.

authorized to cut the string in such cases, although if they do so they must again tie up the packet.

3. The limit of size for a packet addressed to any place abroad is 24 inches in length and 12 inches in width or depth. For limitation of weight see table.

4. The rates of postage, which must be prepaid on packets to places abroad, are given in the Table of Foreign and Colonial Postage.

5. Prints and printed matter are not allowed to pass at book post rates between the United Kingdom and Canada, unless printed on paper, parchment, or vellum.

6. Book packets may be registered on payment by stamp, in addition to the ordinary postage, of the registration fees given in the Table of Postage Rates.

Book packets closed against inspection are to be sent to the Dead Letter Office by first mail.

7. Limits of weight and size are as follow:—

WEIGHT.

If for the United Kingdom	5 lbs.
Countries in the Postal Union	4 "
Australian Colonies	3 "
Other British Colonies and Foreign Countries not in the Postal Union	4 "

SIZE.

For the United Kingdom, British Colonies and all Foreign Countries, whether in the Postal Union or not.	24 inches in length, and 12 inches in breadth or depth.
---	---

8. Water colour drawings are not allowed to be sent in a book packet to France or Algeria.

9. No writing or manuscript may, however, beyond the name and address of the person to whom it is sent, be a misimise in or upon a packet forwarded *via* France to the Argentine Confederation, Bolivia, Chili, Ecuador, Hayti, Mexico, Paraguay, Peru, St. Thomas, Uruguay, United States of Colombia, or Venezuela.

2. Passing between Canada and the United States.

1. The rates of postage and the general conditions of transmission which apply to book packets when transmitted from one place to another within the Dominion, are equally applicable to book packets addressed to the United States.

Book packets sent by mail to the United States are subject to payment of any Customs duties to which the contents may be liable.

"The only books absolutely free from Customs duty, under the United States laws, are those which have been printed more than 20 years; and pamphlets, periodicals, and other like publications, for the personal use of the individual to whom they are addressed."

"Nevertheless, any book valued at more than one dollar is also considered as exempt from Customs duty, and so are photographs, when sent in limited numbers, for the private use of the person to whom they are addressed, or for distribution to relatives or friends."

2. When received duly prepaid from the United States, book packets are not subject, on delivery in Canada, to any Canadian postage, but subject to payment of any Customs duties to which the contents may be liable.

PATTERNS AND SAMPLES.

1. There is a Pattern and Sample Post to the United Kingdom and Foreign Countries and the British Colonies generally; but it is restricted to *bona fide* trade patterns or samples of merchandise. Goods sent for sale, or in execution of an order (however small the quantity may be), or any articles sent by one private individual to another, which are not actually patterns or samples, are not admissible.

2. No article liable to Customs duties can be sent as a sample or pattern.

3. The rates of postage, which must be prepaid, will be found hereafter.

4. Patterns or Samples, when practicable, must be sent in covers open at the ends, and in such a manner as to be easy of examination. But samples of seeds, drugs and such articles, which are sent in packets of this kind, may be posted enclosed in boxes, or in bags of linen, or other material, fastened in such a manner that may be readily opened.

5. There must be no writing or printing upon or in any packet except the address of the person for whom it is intended, the address of the sender, a trade-mark or number, and the price of the articles. But a pack: any country in the Postal Union may have enclosed in it any of the articles designated "Commercial Papers" if the rate applicable to Commercial Papers be paid for the whole packet.

6. Samples of salable value must not be sent to any foreign country, or to any of the British Possessions which are comprised in the Postal Union. Samples of elder-down, raw or thread silk, woolen or goat's hair thread, vanilla, saffron, carmine or iuglass, are considered to fall under this rule, if they weigh more than three ounces.

7. Such articles as scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, provided that they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail-bags and to the officers of the Post Office, while at the same time they may be easily examined, may be sent as samples to places abroad. Indigo cannot be sent to any place abroad.

8. The limit of weight is, to all countries, eight ounces, except to the Australian Colonies *via* Batavia, by which route the limit is three pounds.

9. A packet of Patterns or Samples sent to any place comprised in the Postal Union (except Belgium, France, Greece and Luxa above) must not exceed 8 inches in length, 4 inches in width, or 2 inches in depth. The limit to Belgium, France, Luxembourg or Greece is 12 inches in length, 8 inches in width, and 4 inches in depth. The size of a packet for a non-Union country or colony is limited to 24 inches in length and 12 inches in width or depth.

Passing between Canada and the United States.

1. Patterns, or samples of merchandise, or of goods for sale, including grains, seeds and bulbs, in packets not exceeding eight ounces in weight, may be posted in Canada for transmission to the United States on prepayment by postage stamp of a rate of ten cents each packet.

PARCELS.

1. Parcels cannot be sent by post to any place beyond the Dominion of Canada.

REGISTRATION (FOREIGN AND COLONIAL).

1. The fee chargeable for registration to places abroad will be found in the column headed "Registration Fee" in the Table of Foreign and Colonial postage. To some countries, as shown in that Table, an article can be registered only to the port of arrival; it being left, in those cases, to the postal authorities of the country to which that port belongs to continue the registration or not as they may think proper. To a few countries, as shown in the Table, there is no arrangement whatever for registration.

2. Registration is applicable equally to letters, newspapers, book-packets and patterns addressed to places abroad, except in the cases specially mentioned.

The sender of a registered article addressed to the United Kingdom, any Foreign Country or British Colony in the Postal Union, may obtain an acknowledgment of its due receipt by the addressee on payment of a fee of 5 cents in advance at the time of registration.

3. No article addressed to initials or to a fictitious name can be registered. This prohibition, however, does not extend to articles addressed to the care of a person or firm.

4. Every article presented for registration must be enclosed in a strong envelope, securely fastened.

It is prohibited to send to a country of the Postal Union any registered article marked on the outside with the declared value of the contents, and Postmasters must therefore refuse to receive articles which are so marked.

5. No article can be registered unless both postage and registration fee be paid.

6. Every article to be registered must be given to an agent of the Post Office and a receipt obtained for it, and it should on no account be dropped into a letter-box. Postmasters should be particular always to give certificates of registration, and should point out to persons posting letters, etc., for registration the desirability of possessing proof of posting and registration.

7. As it is prohibited to send coin, jewellery, or precious articles through the post to countries of the Postal Union, no letters or packets addressed to those countries and containing any such articles can be accepted for registration.

8. Letters or packets containing coin for any of the British Colonies not in the Postal Union can be registered, and if they are posted without being registered they are treated in the same manner as inland letters under similar circumstances.

(Registration Stamps are only to be used in payment of Registration Fees, and must not be used in prepayment of postage.)

9. On every letter and packet posted for registration should be affixed, in addition to a stamp or stamps defining the postage, a registered letter stamp corresponding in value to the fee.

10. On all classes of matter addressed to any place in the United States a registered letter stamp of the value of 5 cents.

11. On a letter addressed to any place in the United Kingdom, a registered letter stamp of the value of 5 cents.

12. On a letter, packet or newspaper addressed to the United Kingdom, a registered letter stamp of the value of 5 cents.

13. The registration fees on letters to British Colonies and Foreign Countries will be found in the Tables of Postage Rates.

All insufficiently paid registered letters should be sent to the Dead Letter Office by first mail.

POST CARDS.

1. Special Post Cards to be used for transmission to the United Kingdom and Foreign Countries are issued for sale to the public at 3 cents each. These cards will pass at the rate given in the general table of rates (when the rate of a Post Card is 4 cents, postage stamps to the value of 2 cents must be affixed), subject to the general conditions applicable to Post Cards sent within the Dominion, and whether forwarded in the mails for England *via* the United States or by Canadian packet. Canadian Post Cards cannot be forwarded to the United Kingdom or Foreign Countries.

2. Post Cards posted at any place in Canada, and addressed to any place in the United States, are transmitted to destination without charge, the price of the Cards—1 cent each—being accepted in full prepayment of the postage.

3. Post Cards posted in the United States and addressed to any place in Canada are not subject to any Canadian postage on delivery.

4. United States Post Cards cannot be mailed in Canada.

5. The front or engraved side is intended for the address. There must be nothing else written, printed or otherwise impressed on it. On the reverse side any communication, whether of the nature of a letter or otherwise, may be written or printed. Nothing whatever may be attached to a Post Card, nor may the Post Card be cut or altered in any way. If anything be gummed, pasted, or otherwise attached to or upon a Post Card, or if it be cut or altered in any way, it is not available as a Post Card and must be sent at once to the Dead Letter Office.

6. No cards posted within the Dominion can pass as Post Cards except such as are issued by the Local or District Office, or the reply portions of Reply Post Cards from other Union Countries which may be posted in Canada addressed to the Countries of origin.

7. Post Cards are to be postmarked with the date stamp only on the face or address side of the card, both at the office where posted and at the office of delivery, leaving the other side of the card entirely free for the use of the sender.

BRITISH, COLONIAL AND FOREIGN MAILS—Continued.

In postmarking, care must be taken to avoid interfering with the address, and great care should be taken to cancel effectually the stamp thereon.

8. Post Cards cannot be registered.

9. If any other cards, whether they be Post Cards of the United Kingdom, the United States or other foreign country, or private cards, intended to be used as Post Cards, be posted in Canada, having upon them written communications of the nature of a letter, they must be prepaid as letters, and they will be treated as letters.

ARTICLES NOT ALLOWED TO BE SENT BY POST.

1. It is forbidden to forward by post any indecent or obscene print, painting, photograph, lithograph, engraving, book or card, or any other indecent or obscene article, or any letter, newspaper, publication, packet or card having thereon any words, marks or designs of an indecent, obscene, libellous or grossly offensive character. Anything posted contrary to this prohibition will be stopped and sent to the Postmaster-General, Ottawa.

2. Postmasters are instructed not to receive any letter which there is good reason to believe contains anything likely to injure the contents of the mail-bag, or to do bodily harm to any officer of the Post Office. If such a packet be posted without the Postmaster's knowledge, or if at any time before its despatch he should

discover any such packet, he is directed not to forward it, but to report the case, with the address of the packet, to the Postmaster-General. The following are examples of the articles referred to:

A glass bottle, or glass in any form; leeches, game, fish, meat, fruit or vegetables; bladders or other vessels containing liquids; gunpowder, lucifer matches, or anything which is explosive or liable to sudden combustion.

Besides the prohibited articles enumerated above, no letter or packet containing coin, jewellery, precious articles, or anything liable to Customs duties, may be sent through the post to any country of the Postal Union. The laws of Costa Rica also forbid the transmission by the post within that country of letters or other packets containing coin, watches, jewellery, or other articles of value which are liable to Customs duties; and any such packets, if forwarded, are liable to confiscation. Also the laws of Italy authorize the confiscation of any precious article, or anything liable to Customs duties, or any letter relating to foreign lotteries. Packets containing jewellery, or other articles of value, for the Cape of Good Hope or Queensland are liable to be detained and not delivered to the addressee until the Customs duties have been paid, and letters or packets containing jewellery (which is subject to Customs duties) sent through the post to Victoria (Australia) are liable with their contents to be forfeited.

TABLES OF RATES OF POSTAGE.

TABLE No. 1.—RATES OF POSTAGE ON LETTERS MAILED WITHIN THE DOMINION OF CANADA (INCLUDING THE PROVINCES OF ONTARIO, QUEBEC, NEW BRUNSWICK, NOVA SCOTIA, MANITOBA, BRITISH COLUMBIA, PRINCE EDWARD ISLAND AND NORTH-WEST TERRITORIES), ADDRESSED TO NEWFOUNDLAND AND TO THE UNITED STATES.

CANADA AND NEWFOUNDLAND.

Letters—5 cents per 4 oz. Postal Union regulations as to prepayment of letters.
Post Cards—2 cents (Postal Union Card).
Newspapers,
Other Printed Matter, } Same rates and regulations as for domestic matter.
Samples,
Registration Fee—2 cents, payable by Registration Stamp.

CANADA AND UNITED STATES.

Letters—3 cents per half ounce. Insufficiently paid letters mailed in the United States and addressed to Canada, or vice versa, mailed in Canada and addressed to the United States, on which a single rate of postage or more has been prepaid, will be forwarded charged with the deficient amount of postage, to be collected on

delivery and retained by the Post Department of the country of destination. The amount of such deficient postage shall be indicated in figures, by the despatching exchange office on the upper left-hand corner of the address.

Post Cards, Newspapers, and other Printed Matter—Same rates and regulations as for domestic matter.

When newspapers, periodicals and other printed matter, published or originating in the United States, are brought into Canada and posted there for destination in the United States, apparently to evade the postage rates or regulations applicable to such matter in the United States, the Canadian Post Office may require prepayment of the same to be made at a rate equivalent to double the Canadian domestic rates.

Samples—10 cents per 8 ounces. Must not exceed 8 ounces in weight.

Registration Fee—5 cents, payable by Registration Stamp. All classes of matter addressed to the United States may be registered.

Full prepayment on all classes of matter, except letters, compulsory.

TABLE No. 2.—SHOWING RATES OF POSTAGE CHARGEABLE IN CANADA ON LETTERS, NEWSPAPERS, ETC., TO UNITED KINGDOM, BRITISH COLONIES AND FOREIGN COUNTRIES. LETTERS FOR COUNTRIES TO WHICH PREPAYMENT IS COMPULSORY (see Note c), WHEN UNPAID OR INSUFFICIENTLY PREPAID, WILL BE SENT TO THE DEAD LETTER OFFICE.

MAIL ROUTES.

With Manitoba the postal communication is daily all the year round. To British Columbia, mails are forwarded daily, via the United States, and thence by steamer from San Francisco to Victoria, every Friday. Mails are also sent overland through Washington Territory to Puget Sound and thence by steamer to Victoria.

From Victoria, mails are despatched weekly, by steamer, via San Francisco. Mails are also sent from Victoria by way of Puget Sound, and thence by land through Washington Territory.

UNITED KINGDOM, FRANCE, GERMANY AND OTHER EUROPEAN COUNTRIES.

Mails for England, including European mails generally, are despatched from Canada, as follow:

Once per week by Canadian steamer sailing every Saturday from Quebec in summer, and from Halifax in winter.

Once a week by Cunard steamer, sailing from New York every Wednesday.

Once a week by Inman (or other line of steamers) sailing from New York every Thursday.

WEST INDIES, via HALIFAX.

By direct Packet from Halifax, once per month, to Bermuda and St. Thomas, and to the West Indies, via St. Thomas.

AUSTRALIA, CHINA, JAPAN AND FIJI, via SAN FRANCISCO.

The direct postal routes from Canada to the undermentioned countries are as follow:—

To Australia, New Zealand, China and Japan, and Fiji Islands, via San Francisco, once a month.

MEXICO, WEST INDIES AND SOUTH AMERICA, via NEW YORK.

To Mexico, the Isthmus of Panama and South America, Bermuda and the West India Islands, via New York, twice a week on the principal sea routes and once a fortnight on less important lines.

NEWFOUNDLAND.

Packets sail once a fortnight from Halifax to Newfoundland. To all other parts of the globe, mails are sent via England.

N.B.—The Postal Union limit of weight for Newspapers and Printed Matter is 4 pounds, and for samples 8 ounces.

Where the rate on Samples of Merchandise for Postal Union Countries is given at 1c. per oz., it must be understood that this does not apply to the first two ounces, the rate on which is 2c.; each subsequent weight of 2 oz. being chargeable 1c. as given in the table. Where the rate is fixed at more than one cent, the initial rate is not doubled. Commercial papers, addressed to Postal Union Countries, are assimilated, as regards Postage, to Printed Matter and Samples of Merchandise, except that the rate for the first 2 oz. is 5c.; for each subsequent 2 oz. 1c. or 2c. according to destination.

a. Additional charge is made on delivery; where the *c* is not used no additional charge is made.

c. Prepayment is compulsory. If matter is not fully prepaid it will not be forwarded. In all cases where the *c* is not used, prepayment of Letters is optional; all other matter, if not prepaid at least one full rate, will not be forwarded.

e. The Fee for registration is for the package, and must be placed upon it, in registration stamps, in addition to the regular postage before it is presented to be registered.

g. Canadian Newspapers and Periodicals sent from office of publication to regular subscribers in the United Kingdom by Canadian steamers 1 cent per pound. Every Newspaper and Periodical prepaid at the bulk rate of 1 cent per pound must be stamped "Prepaid by publisher" at the post office where such Newspaper or Periodical is mailed. Packages containing several papers for delivery from the same office cannot be transmitted to the United Kingdom or Foreign Countries; each Newspaper must be placed in a separate cover, except in cases where more than one paper is sent to the same person. If sent by Cunard or other Packets than Canadian, full rates must be charged. Samples to Great Britain limited to 8 oz. in weight.

POST-OFFICE SAVINGS BANKS, CANADA.

1. The following Post-office Savings Banks in Ontario and Quebec are open daily for the receipt and payment of deposits, during the ordinary hours of Post-office business.

2. The direct security of the Dominion is given by the Statute for all deposits made.

3. Any person may have a deposit account, and may deposit, yearly any number of dollars, from \$1 up to \$300, or more with the permission of the Postmaster-General.

4. Deposits may be made by married women, and deposits so made, or made by women who shall afterwards marry, will be repaid to any such woman.

5. As respects children under ten years of age, money may be deposited—
FIRSTLY—By a parent or friend as Trustee for the child, in which case the deposits can be withdrawn by the Trustee until the child shall attain the age of ten years, after which time repayment will be made only on the joint receipt of both Trustee and child.

SECONDLY—In the child's own name—and, if so deposited, repayment will not be made until the child shall attain the age of ten years.

6. A depositor in any of the Savings Bank Post-offices may continue his deposits at any other of such offices, without notice or change of Pass Book, and can withdraw money at that Savings Bank Office which is most convenient to him. For instance, if he makes his first deposit at the Savings Bank at Cobourg, he may make further deposits at, or withdraw his money through, the Post-office Bank at Collingwood or Quebec, Sarnia, Brockville, or any place which may be convenient to him, whether he continues to reside at Cobourg or remove to some other place.

7. Each depositor is supplied with a Pass Book, which is to be produced to the Postmaster every time the depositor pays in or withdraws money, and the sums paid in or withdrawn are entered therein by the Postmaster receiving or paying the same.

8. Each depositor's account is kept in the Postmaster-General's Office, in Ottawa, and in addition to the Postmaster's receipt in the Pass Book, a direct acknowledgment from the Postmaster-General for each sum paid in is sent to the depositor. If this acknowledgment does not reach the depositor within ten days from the date of his deposit, he must apply immediately to the Postmaster-General, by letter, being careful to give his address, and, if necessary, write again, because the Postmaster's receipt or entry in the Pass Book is not sufficient without the further receipt for the money from Ottawa.

9. Every depositor must send his book, once a year, viz., on the anniversary of his first deposit, for comparison with the Books of the Department, and for insertion of interest. The book will be returned to him by first mail. At no other time should a depositor suffer his book to be out of his own possession.

10. When a depositor wishes to withdraw money he can do so by applying to the Postmaster-General, who will send him by return mail a cheque for the amount, payable at whatever Savings Bank Post-office the depositor may have named in his application.

11. Interest at the rate of four per cent. per annum is allowed on deposits, and the interest is added to the principal on the 30th June in each year.

12. Postmasters are forbidden by law to disclose the name of any depositor, or the amount of any sum deposited or withdrawn.

13. No charge is made to depositors on paying in or drawing out money, nor for Pass Books, nor for postage on communications with the Postmaster-General in relation to their deposits.

14. The Postmaster-General is always ready to receive and attend to all applications, complaints, or other communications addressed to him by depositors or others, relative to Post-office Savings Bank business.

THE MEASUREMENT OF TIMBER OR SCANTLING.

SCANTLING, or Timber for building, is sold by the square foot of inch-board measure. Thus, a cubic foot of scantling, which is a foot wide, a foot thick, and a foot long, contains twelve foot-measure. To ascertain the square feet in a piece of scantling of any length, width, and thickness, multiply the width in inches by the thickness in inches; then multiply the product of these figures by the length in feet, and divide the second product by twelve; the quotient is the number of feet, and the remainder, if any, is the odd inches. Six inches and over are usually reckoned as an extra foot. In measuring the length of a piece of timber the lumberman counts even feet only. Unless the length is full ten inches or more over an even number of feet, the excess is not counted; but ten inches over are counted as a full foot. In marking the contents of a piece of timber when it runs over measure, the lumberman usually places a mark at the spot where the measurement ends. The marks are made on one end of the stick with Roman capital letters instead of figures, as XXI for 21, XVIII for 18, and so on.

EXAMPLE.—Suppose a stick of timber to be 11 inches wide, 9 inches thick, and to measure 27 feet in length:

Multiply 9 the width
by 11 the thickness.
Product 99 by which
multiply 27 the length in feet.

693
198
Divide this product by 12)2736
Quotient 227 the remainder.

The quotient is the number of square feet (inch-board measure), the 9 remainder being the odd inches. As six inches and over are counted a foot, 227 feet are the contents of the stick.

TABLE GIVING EXACT PROPORTIONS OF AN ACRE IN SQUARE FEET IN A LOT LESS THAN AN ACRE.

[illegible]

NOTE.—When the opposite sides of a piece of land are of unequal length, add them together and take one-half for the mean length or width.

TO FIND THE NUMBER OF ACRES IN A BODY OF LAND.—Multiply the length by the width in rods (16½ feet) and divide by 31½.

MEASUREMENT.

Circumference of a circle = Diameter $\times 3.1416$, or by 3.	
Length of arc of circle = Take span from 8 times the chord of half the arc, and $\frac{1}{8}$ remainder = length of arc required.	
Length of arc containing 120° = Span $\times 1.2092$	
Area of circle = Square of diameter $\times .7854$	
Area of segment of a circle = To twice square root of span, + square root of rise, add chord of half arc, and the result multiplied by $\frac{1}{8}$ of rise = area.	
Area of segment of a circle, when it contains 120° = Square of span multiplied by .20473.	
Area of sector of circle = Radius $\times \frac{1}{2}$ length of arc	
Area of ellipse = Product of the 2 diameters $\times .7854$	
Area of egg-shaped sewer = Square of transverse diameter $\times 1.1597$.	
Area of triangle = $\sqrt{s(s-a)(s-b)(s-c)}$ where a, b, c are sides and s is half their sum.	
Solidity of cone = Area of base $\times \frac{1}{3}$ perpendicular height.	
Solidity of globe = Cube of diameter $\times .5236$.	
Surface of globe = Square of diameter $\times 3.1416$.	
Prismoidal formula = Sum of end areas + 4 times middle area multiplied by $\frac{1}{6}$ of length.	
Prismoidal formula, applied to earthworks, casks, and truncated cones.

CAN RUPTURE BE CURED?

WE ANSWER IT CAN BY USING THE

"EGAN IMPERIAL TRUSS,"

Having a Spiral Spring Pod, with a graduated pressure, movable face, yielding to every motion of the body, retaining the *Hernia* always during the hardest work or *strenuous strain*, with no pressure on the spine causing Paralysis, Spinal and Kidney troubles, as all other trusses will, and being a perfect support for the back and bowels it does away with wearing a double truss in many cases: worn day and night with ease and comfort. Send us your name and address, post card will do, and by return mail we will send you full printed and written information FREE.

DIVISIONS OF TIME.—Owing to the difficulty experienced by travellers in regard to the Time-Tables of the different railways in North America, a Railway Time Convention was held in Chicago, Ill. (U.S.), on Oct. 11th, 1883, and a **Standard Time** was decided upon for the Continent.

Five meridians of time were adopted, each regulating the time of its own division of longitude; they are 15° of longitude apart, which is equal to an hour in time. Thus, Intercolonial Time is taken from the 60th meridian W. of Greenwich; Eastern Time from the 75th meridian, or one hour slower than Intercolonial Time; Central Time from the 90th meridian, or another hour slower; Mountain Time from the 105th meridian; and Pacific Time from the 120th meridian, or 4 hours slower than Intercolonial Time.

NOTE.—The red lines on the map show the limits of the different time divisions.
